

ORDINANCE NO. 19-1015

**AN ORDINANCE OF THE CITY OF OREGON CITY ADOPTING PUBLIC WORKS
STORMWATER AND GRADING DESIGN STANDARDS FOR OREGON CITY**

WHEREAS, the City of Oregon City (City) operates a stormwater management system in order meet the requirements of the City's National Pollutant Discharge Elimination System (NPDES) permit; and

WHEREAS, the City manages the stormwater collection and treatment systems within the city limits of Oregon City consisting of 22 drainage basins, over 14 acres of detention ponds, over 114 miles of storm sewer, over 2 miles of culverts, over 6,500 drainage structures, and over 30 miles of ditches and open streams; and

WHEREAS, the City finds it is necessary to establish and implement uniform engineering design standards for all Public Works Stormwater and Grading projects in the interest of health, safety, and welfare of the residents of the City of Oregon City.

NOW, THEREFORE, OREGON CITY ORDAINS AS FOLLOWS:

Section 1. For the reasons set forth in the Legislative Staff Report findings for file GLUA 19-00002: LEG 19-00005, the City Commission hereby adopts the Public Works Stormwater and Grading Design Standards, attached as Exhibit A, that will regulate the development and operation of all publicly and privately-owned stormwater improvements within the City.

Section 2. The Public Works Stormwater and Grading Design Standards adopted by this Ordinance shall supersede and fully replace the Public Works Stormwater and Grading Design Standards adopted February 2015.

Read for the first time at a regular meeting of the City Commission held on the 6th day of November, and the City Commission finally enacted the foregoing Ordinance this 20th day of November 2019.

DAN HOLLADAY, Mayor

Attested to this 20th day of November 2019:

Approved as to legal sufficiency:

Kattie Riggs, City Recorder

City Attorney
