

Residency Requirement for City Commissioner

The real question is if a commission candidate was a resident of Oregon City starting on November 6, 2011 on through the all months after in order to meet the 12 month requirement. What evidence can he present which adequately identifies that he/she meets this requirement. Typically he/she would have had some documentation such as utility bills, bank statements, a driver's license or state ID (within 30 days of an address change) which would provide this status. It would be advisable for these guidelines to be defined in advance so the candidate can assess if he/she meets this requirement.
