

**Our City Commission
has established goals
they wish to achieve
for the future benefit
of our city.**

Should involved citizens,
such as you, be involved
in helping them
reach those goals?

Seek Opportunities to Maintain Communications with Citizens and Facilitate Citizen Participation
- GOAL 4** Facilitate Citizen Participation
- GOAL 5** Maintain Fiscal Health & Long Term Stability

An R-6 Development

If you are interested in seeing what it looks like, tour the area shown by the arrows. Notice the trash & recycle containers in front of many homes.

An R-10 Development

This is the tax lot map for the adjacent Hazel Creek Farms development. If you are interested in seeing what it looks like, tour the area shown by the map below.

Notice the lack of trash & recycle containers in front of most of the homes. When I toured the area of 50 homes, two had containers in front and two on the side but visible from the street. One of these homes was replacing carpeting and their garage was undoubtedly full of furniture at the time, thus vehicles and the trash containers were in the driveway.
