**LEGO Lab**  
**Saturdays @11:30 am**

We provide the LEGOs, you provide the imagination! Each week, kids of all ages build LEGO sculptures using a randomly selected challenge as inspiration. Then, we display the sculptures in the Children's Room for everyone to admire.

**Art Lab**  
**Wednesdays @2:30 pm and 3:30 pm**  
**Oregon City Public Library**

Kids and grownups, come get your hands dirty (or at least covered in glue) at Art Lab! Each week, we provide you with inspiration in the form of a famous artist or art technique. Then, you use our art supplies to create a masterpiece of your very own.

**Read to the Dogs**  
**Friday October 6th @3:30pm & Saturday October 21st @ 1pm**

Come share a story with a four-legged friend! A trained therapy dog will be available at the library for one-on-one or small group reading sessions with kids age 3-12. No need to sign up, either! There will be enough time for everyone to spend a few minutes cuddling and reading.

A provocative social experiment-turned-documentary, Kumaré follows American filmmaker Vikram Gandhi as he transforms himself into a wise Indian guru, hoping to prove the absurdity of blind faith. Instead, he finds himself forging profound connections with people from all walks of life -- and wondering if and when to reveal his true self. Will his followers accept his final teaching? Can this illusion reveal a greater spiritual truth?

**Beginning Watercolor Workshop**  
**Saturday, October 7th @1:30pm**  
**Oregon City Public Library**

Watercolor is a wonderful medium that has been used since ancient times; it is one of the earliest ways of recording history and illustrating stories. Although the supplies are minimal, watercolor painting can be uniquely challenging! In this workshop you will learn basic watercolor techniques. You will learn how to create a wash, splatter effects, wet-in-wet, and dry brush. We will learn about the various materials...(Cont.)

True Stories of the Columbus Day Storm. McDonald will start the program with a discussion of oral histories and how to collect and categorize them into a cohesive presentation. Then she will show a video of the original production with full-screen stories by several dozen survivors who experienced the storm from Florence to Brookings, and from Eugene north to the Juan de Fuca Straights.
