Re: Tentative Cost for BRCP Parks

The cost for the parks in the Beavercreek Concept Plan area is anticipated to be approximately \$24 million. The estimated costs are separate from and not incorporated into the Beavercreek Road Master Plan and will not affect park system development charges at this time. It is anticipated that the projects will be added to the Parks capital improvement projects list at a future date.

Park	Location	Budget
East Ridge Conservation Area	Thimble Creek Concept Plan	\$12,000,000
South Central Open Space- Neighborhood Park	Thimble Creek Concept Plan	\$12,000,000
