Honorable Dan Holladay:

I wish to thank you for your time and consideration last night of the 2011 ruling on membrane structures. I was pleased for your fair approach to this matter.

Frank O'Donnell and I have talked considerably about this issue. When he talked with ~~last~~ you last night he expressed my concerns, however I would like to follow up with my personal story.

I purchased the property located at 11721 Partlow Road several years ago. I bought the property to remodel and use as a rental and to have a double lot with a 24' shed to house my tools of trade. The steel structure in front of the shed houses my 22' cabin boat.

I'm sending pictures that need not be returned. They show that only the left side is visible from the right of way. It is 234' from the right of way to the front of the structure.

This unit ^{was} anchored into ~~at~~ thirty two ft. cement pad one year after the house was built in 1972.

As you can tell it's in good condition with its present value at \$6,000⁰⁰

Thank You Sincerely,

Tony Poole
