

2013 Annual Paving

This summer, Oregon City Public Works has two pavement reconstruction projects that will be occurring almost simultaneously. This notice has been sent to your home/business because it is in the vicinity of one or both projects and access/parking may be temporarily affected. Any work scheduled to occur that will affect your ingress/egress warrants an additional notice hand delivered to your door between 24 and 48 hours prior to the work. Maps of the projects can found on the web sites provided and roadway scheduling information will also be posted as information becomes available.

The paving portion of these projects are being funded by the Pavement Maintenance Utility Fee (PMUF) which is included on monthly utility bills. Any underground utility work such as the waterline work on Clairmont Way will be paid for out of the individual utility accounts (i.e., water, sanitary sewer, etc.), also included on your utility bills. The two projects and their specifics are:

2013 Pavement Improvements Project			
Street	Beginning	Ending	General Treatment Description
Brighton Ave	Ogden Dr	Jersey Ave	2 inch overlay
Clairmont Wy	Molalla Ave	Berta Dr	Grind existing pavement and place a 4 inch inlay
Gaffney Ln	Molalla Ave	Berta Dr	Grind existing pavement and place a 2 inch inlay on east and west end of Gaffney and a 4 inch inlay in the center
