Clackamas County Board of Commissioners

The City of Canby, City of Estacada, City of Gladstone, City of Happy Valley, City of Lake Oswego, City of Milwaukie, City of Molalla, City of Oregon City, City of Sandy, City of Wilsonville, and City of West Linn fully support the C800 project to replace the Clackamas County existing emergency radio system. On behalf of our Council's we hereby request that the Clackamas Board of Commissioners place a Bond Measure on the May 2016 Primary Ballot to fund this project.

We understand the Clackamas County emergency radio system is out dated and prone to failure. This project is the responsible way to save lives and fix the problem, creating an efficient, dependable communications system that works in all parts of Clackamas County.

The proposed system replacement will enhance coverage by adding emergency communications towers in areas of the County that currently have none. Further it will expand in-building coverage allowing radios to function better in large buildings like hospitals and schools.

We appreciate the partnership C800 has fostered with Washington County Consolidated Communications Agency (WCCCA) to provide emergency radio service to the public safety community in both counties in a seamless, efficient, and cost effective manner.

This is a public safety issue for all the citizens. It needs to work regardless of where you are in Clackamas County, regardless of whether you are at home or at work or at play or travelling the roads. The public safety radio system is at the core of a strong, unified public safety response system

Sincerely,

C800 Members
