Subject: More shelters coming to MAX Orange Line stations

This week, crews have begun a year-long project to construct and install 14 additional shelters at the 10 MAX Orange Line stations. The shelters are among a handful of add-back items that the Federal Transit Administration gave TriMet approval to install after the Portland-Milwaukie Light Rail Transit Project came in on time but under budget. The shelters will feature the same rider amenities found at current Orange Line shelters, including flat screen arrival information, seating and art features. Work begins at the southern end of the Orange Line at SE Park Ave and Milwaukie/SE Main St stations. [More](#)
