

Director's Report-April 2017

Building:

- getting black out shades for Circ Room
- workers moved thermostat into Circ Room
- we still need: shelf and sign on TEEN curved stack; Carnegie doors hooked up to key card and some other small items. I have contacted the architects about noise and some other work I want them to do.
- RFID is on track; three carts will be showing up on May 11 and tagging will take place May 12-23; the automated materials handler will be installed in August

Staff Topics:

- I'm working on some staff training events; the topics mostly focus on dealing with difficult people in some way, shape or form
- we had a really nice Volunteer Recognition Breakfast

Other:

- the library sign
- the budget for 2017-2019 has been approved

Programs:

- gearing up for Summer Reading: Police vs. Fire competition
- attendance has been great at so many events; it feels like we are becoming known for good events (thank you, Gina!)
