Subject: FW: 213/Beavercreek

FYI- I got some information about the connectivity of ODOT's signals on 213, and the County's and City's on Beavercreek. Someone was asking about this at the last meeting.

Mike,

ODOT has communication to all of their traffic signals except for Hwy 213 at Beavercreek. County TS & CBX fiber group is currently working with ODOT in providing connectivity to this signal. As for the rest, ODOT is communicating either through fiber or cellular modem.

Hwy 213 corridor

@ Prairie Sch/Washington – Fiber Optic
@ Redland – Fiber Optic
@ Beavercreek – Under construction
@ Molalla – Cell
@ Meyers – Cell
@ Caufield/Glen Oak - Cell

Beavercreek corridor

Communication to all County & City signals (via Fiber/Ethernet Communication)
[From Warner Milne to Henrici Rd]

Subject: 213/Beavercreek

Does the ODOT signal at 213/Beavercreek “talk” to other signals around it? Is it connected to others on Beavercreek, or even 213/Redland?
