Dear Mayor Holladay

I would like to bring to your attention, of a program that helped not only my son but my husband and myself to get Tyler to graduate. Up until Junior year, Tyler's attendance was perfect and grades were B+cs. Junior year came along as well as a bad attitude. His grades dropped dramatically as well as his attendance. He was put into this program called Attendance Court, where this wonderful Judge Soraine McNiece who I cannot praise enough on how much personal interest she takes in each and every child. She was stern but fair and kept the accountability for their actions. She even attends their graduations. We ~~believe~~ believe Judge McNiece should be given some kind of recognition for her work in this program and to make sure this program stays around.

Thank you! Dennis & Laurie Wilson
