Dear City of Oregon City Commission:

This letter is in support of the proposed Economic Improvement District plan. I am unable to attend the December 20 meeting to express my support in person.

My properties, which are not in the current Economic Improvement District are part of the proposed Zone 3. They include the Abernethy Center and buildings that house multiple commercial tenants.

The expansion of the Economic Improvement District reflects the growing strength of the programs managed by the Downtown Oregon City Association as well as the changing business landscape of the northern end of downtown. Since the EID was last renewed, Oregon City Brewing Company and Grano Bakery and Market opened. There are many big projects in the works (including two hotels and hundreds of housing units) adjacent to this area that are benefited from a strong coordinated revitalization effort.

The EID is integral to the success of all of Downtown Oregon City Association's programs. It especially provides support for Clean Team, Beautification, Business Development, and Advocacy programs as well as project management of initiatives spearheaded by DOCA's volunteer-led committees which include a new North End Taskforce.

Thank you for your continued support of downtown's renewal. There is a lot of work to do over the next four years. I encourage you to vote in favor of Ordinance 18-1001.

Sincerely,

Dan Fowler

Re: Economic Improvement District – Renewal and Increase in Annual Maximum

Dear City Commissioners,

As Business and Property Owners on Main Street in Oregon City, we are strong advocates and supporters of the Downtown Oregon City Association and the Economic Improvement District (EID). Without the EID and the Downtown Association efforts and their dedication in helping to revitalize our community and create a gathering place on Main Street, we would not be enjoying the renaissance we are experiencing today.

By collectively supporting and funding the EID, individual business owners, property owners and residents mutually benefit from this community effort. The DOCA mission statement says it all “As the stakeholder-stewards of Downtown Oregon City, we work together as facilitators, coordinators, and together with partners as a catalyst to generate a positive downtown image, preserve historic and cultural landmarks, and stimulate economic vitality and investment in our downtown and in Oregon City.”

In addition to our support of the EID, we also enjoy having DOCA as tenants in our building. We have and continue to offer affordable office space and other resources to the Downtown Association that afford them the ability to redirect overhead costs towards efforts that benefit us all. In the end, if we want to see change, we must forego the notion of “what’s in it for us” and adopt the philosophy of how can we better serve our community.

You have our unanimous vote for the continuation of the EID including the increase in cap from \$975.00 to \$1,250.00 in support for a downtown Oregon City we can all take pride in!

Respectfully,

Erik & Barbara Orton
