OCMC	Summary	Explanation
Chapter / Section		
2.28 Historic Review Board		
2.28.070 Appeals	• Removes Section. Cross references OCMC 17.50.190.	 Section is redundant. Change makes appeal process consistent with OCMC 17.50.HRB Appeal fee per adopted Fee Schedule.
12.04 Streets Sidewalks and Public	e Places	
	 The standards relevant to development of a street or pedestrian pathway were relocated to OCMC 16.12, which has been amended to include all standards for development. Chapter 12.04 has been retained to include standards relevant to street maintenance. Sidewalk construction standards clarified. Amended driveway access standards to allow some properties fronting a major street two driveways. 	 This change will streamline development review by consolidating designs standards in one chapter 16.12 applicable to all new development. On-going operational, maintenance and enforcement standards applicable to existing development and management of public rights-of-ways will remain in Chapter 12.04.
12.04.003 - Applicability.	Moved to OCMC 16.12	See above
12.04.007 – Modifications.	Moved to OCMC 16.12	See above
12.04.010 – Construction specifications – Improved streets.	Moved to OCMC 16.12	See above
12.04.020 – Construction specifications – Unimproved streets.	Moved to OCMC 16.12	Moved to standard engineering specifications rather than code.
12.04.025 – Street design – Driveway curb cut. Renamed to "Driveways".	Moved to OCMC 16.12. Section cross-references driveway standards in OCMC 16.12	Cross-references OCMC 16.12. Cross-reference required because driveways could be reviewed on their own, outside of a development subject to 16.12. Clarifies and codifies existing policies.

12.08 Public and Street Trees		
12.08.015	 Applies to all "Development" per code definition, not just new construction and major redevelopment. Adds 5-foot utility spacing requirement 	Clarifies and codifies existing policies.
12.08.020	•	
12.08.035	Adds cross reference to OCMC 17.41 Tree Protection.	Clarifies and codifies existing policies.
12.08.035	Allow for tree replacement in front yard if insufficient space in planter strip (w/covenant)	Clarifies and codifies existing policies. Adds additional options when a tree cannot be planted due to planting constraints.
16.08 Land Divisions – Process and	Standards	
16.08.010 – Purpose and General Provisions	 Defines minor partition and subdivisions in greater detail. OCMC 16.08 now includes standards for both Minor Partitions and Subdivisions, not just Subdivisions. Cross references applicable chapters, overlay districts and zone district criteria. 	 Combining subdivision and minor partition requirements, which are currently in two separate chapters, into a single chapter called Land Divisions making the code easier to navigate. Clarification of existing policies
16.08.015. – Preapplication conference required.	 Removes redundant details about pre-application conference application requirements, and cross references 17.50 instead. 	Redundant with OCMC 17.50.
16.08.020 – Preliminary subdivision plat application.	Removes unnecessary details about preliminary subdivision plat application submittal details.	Details about preliminary plat submittal requirements are redundant with OCMC 16.08.025

16.08.025 – Preliminary subdivision plat – Required plans information.	 Removing references to subdivision and replacing with land divisions Removes details for subdivision connectivity analysis Require that the preliminary plat shall be drawn by a surveyor. Clarifies required site plan information 	 Combining subdivision and minor partition requirements for clarity and ease of navigation of the code Redundant with requirements for traffic circulation plan required in OCMC 16.08.025.H Clarifying and codifying existing policy Clearer, codified application requirements
16.08.030 – Narrative statement	 Remove heading Removing overlapping submittal information redundant with OCMC 16.08.025 Submittal requirements for public services, CC&Rs, density calculations, and connectivity analysis will remain and will be combined with 16.08.025 	 Heading not needed Redundant with submittal requirements in OCMC 16.08.025 Combining all submittal requirements into 16.08.025 in order to have clearer application requirements that are easy to find.
16.08.035 - Notice and invitation to comment.	• Remove	Section is redundant with OCMC 17.50
16.08.040 - Preliminary subdivision plat—Approval standards and decision.	• Remove	Section was redundant with OCMC 17.50
16.08.27 – Large Parcels.	 New section to house an existing standard which was previously in a section where it did not belong and was difficult to find Removing reference to chapters which have been removed and removing confusing/unnecessary language 	 Moving standards to more appropriate section where they are easier to find Making standard easier to understand In the R-2 district, minimum density is regulated through site plan and design review standards, and in commercial zones there is no minimum lot size, therefore it is unnecessary to apply this standard to these zones.

16.08.045 - Building site—Frontage width requirement.	 Clarifying that the standard is not applicable in the R-2 or non-residential zoning districts Removed phrase "Building Site" Adding language to clarify that the 20-foot minimum frontage requirement is not applicable for flag lots 	 Clarification/Removing confusing language Clarifying what is already in existing code
16.08.050 - Flag lots in subdivisions.	 Removed "in subdivisions". Clarifying requirements for joint accessways Adds language regarding design of joint accessways for flag lots, same as minor partitions 	 Flag lots are all subject to the same standards. Unnecessary to have a section for flag lots in subdivisions and a different section for flag lots in partitions. Clarifies flag lot requirements resulting in clearer standards that are easier to understand Confusing and unnecessary to have two different sets of standards for flag lots depending on whether they are in a subdivision or minor partition.
16.08.053 Tracts	 New section clarifying that tracts are exempt from compliance with the dimensional standards of the underlying zoning designation, frontage requirements and flag lot requirements. 	Tracts are undevelopable, so it is unnecessary to impose dimensional standards
16.08.054 General	Adding general submittal requirements for land divisions, including property owners' signatures, fees, etc.	Capturing submittal requirements not included in 16.08.025
16.08.055 - Final subdivision plat—Application requirements and approval standards.	 Removing reference to subdivision Allowing final plat to deviate slightly from the approved preliminary plat, as long as it 	 Applies to all plats. No need for separate subdivision and minor partition standards. Plat process is the same. Layouts can change slightly between preliminary and final plat depending on conditions of approval, construction of public improvements, site conditions, etc.

16.08.060 – Filing and recording of final subdivision plat 16.08.065 – Post approval modifications to approved plat.	doesn't result in an increase of lots in a Minor Partition, or an increase of more than 2 lots in a subdivision Removing reference to subdivision Moved to 16.08.055 and revised as stated above	 Minor changes are to be expected and are acceptable without a separate review. Applies to all plats. No need for separate subdivision and minor partition standards. Plat process is the same. Moved to more appropriate section for ease of navigation.
Chapter 10.12 Minimum Improven	nents and Design Standards for Developmo	This chapter was reorganized to include street improvements for development applications including street design standards from OCMC 12.04.
16.12.010 - Purpose and general provisions	 Amended purpose to apply more broadly to development and not land divisions. 	Apply the chapter more broadly.
16.12.011 - Applicability	 Moves certain street design standards from Chapter 12.04 Amended purpose to apply more broadly to development and not land divisions. 	 Provides clarification on how street improvements for large additions or new homes are calculated, and explicitly excluded ADU's from said calculation. Amended purpose to apply more broadly to development and not land divisions. Relocated from 12.04
16.12.013 - Modifications	 Criteria for modification of street standards. 	Relocated from 12.04
16.12.015 – Street Design - Generally	 Requires street improvements per TSP, including dedication, connectivity to adjacent properties, etc. 	Moved from 12.04
16.12.016 – Street Design	 Added approval by City Engineer for street design. 	Moved from 12.04
Table 16.12.016 Street Design	Required improvements by Road Classification	Moved from 12.04

	 Requires compliance with Transportation System Plan Add clarity related to pedestrian connections. Process for reduced street design Planter strip requirements cross- reference to OCMC 12.08 	
16.12.017019		Moved from 12.04
16.12.020 Blocks Generally	Removed.	Remove standards related to blocks. See 16.12.030.
16.12.020 – 16.12.025	Removed block design	Remove redundant and unclear standardMoved from 12.04
16.12.026 -16.12.029	 Changed to only require alleys in concept plan medium, high and mixed use zones. 	 Moved from 12.04; Alley requirement is not practicable for infill areas within existing developed areas of city.
16.12.030 - Blocks—Width	 Allow larger blocks in GI, CI, MUE, I, and WFDD zoning designations. Consolidates existing block length and spacing standards from 12.04 in one section. 	 Allow larger blocks in industrial and institutional zoning designations. Sections consolidated for ease of use.
16.12.031- Street Names.	No changes	Moved from 12.04
16.12.032 - Pedestrian and bicycle accessways.	 Minor changes to Modify pavement and landscaping standard Specify applies to off –street pedestrian accessways 	 Moved from 12.04 Size of adjacent landscaping altered to be the same on both sides of the path Reworded for clarity
16.12.033 – Mobility Standards	No changes.	Moved from 12.04

16.12.035 - Reserved. Driveways.	 Clarifies measurement method for driveway spacing. Applies intersection spacing requirements of 16.12.020 to high-volume driveways. Allow City Engineer flexibility to approve driveway modifications. Clarifies restrictions on number and width of driveways. 	 Moved from 12.04. Consolidates and clarifies existing standards. Amended driveway access standards to allow some properties fronting a major street two driveways.
16.12.040 – Building sites	Remove unclear standards	Amended standard for clarity
16.12.050 – Lot Size Reduction	Restricted to only apply to single- family detached dwellings	Assure lot size reductions do not apply to all housing types.
16.12.060 Building site—Lot and parcel side lines.	Exempt lots associated with cluster housing from rectangular shaped lots	Allow more flexibility in design
16.12.070.	 Clarify intent Relocate driveway standards to 16.12.035 – Driveways. 	 Clarify Consolidate standards related to driveways into one location.
16.12.085(B). Franchise Utilities	Added.	Clarifies Franchise utility easement requirement. Formerly "Public Utility Easement".
16.12.090 - Minimum improvements—Procedures. Subsection (D)	Add specificity about utilities on private property	Add clarity
16.12.095 - Minimum improvements—Public facilities and services.	 Split subsection into two Add clarity Remove redundant or dated language Relocate E and F 	Relocates Local Improvement District non-remonstrance language to one subsection.
16.12.100 - Same—Road standards and requirements	Amend code section reference	Changed to reflect code amendments

16.12.101 - Standard construction specifications.	• relocated	Relocated.
16.12.105.C. Financial Guarantee	Removed.	Removed outdated language which is discussed in other subsections.
16.12.110. Public Improvements – Financial Guarantees	 Modified. Clarify performance guarantees and performance warrantee process and amount. Added performance warranty language 	 Revised outdated language. Updates performance warranty standards.
16.12.120 Waiver of Remonstrance	Relocated	.Relocated
16.12.125 Violation—Penalty.	Relocated	Add section on violations and penalties
Chapter 16.16. Minor Partitions –		
	Chapter deleted and integrated into 16.08.	Chapter deleted and integrated into 16.08 which includes all land divisions instead of a separate chapter for Minor Partitions and Land Divisions
Chapter 16.20 Property Line Adjus	stments and Abandonment Process and Sta	andards
	 Minor procedure revisions to better conform to state statutes and administrative procedures. Clarify requirements for submittal of a lot line adjustment or abandonment application. Clarify the relevant criteria for a lot line adjustment or abandonment application. 	Clearer application standards
Chapter 17.04 Definitions	A 11 1	N. I. C. L.
17.04.006 3-4 Plex residential	Added.	New definition.
17.04.145 – Bed and Breakfast inns/Boardinghouse	Revised.	Revised to clarify that this definition does not include transitional shelters
17.04.253 Cluster housing	Added.	New definition.

17.04.260 - Cottage housing.	Removed.	Replaced by "Cluster housing".
17.04.260 Corner duplexes	Added.	New definition.
17.04.333 Duplex, corner	Added.	New definition.
17.04.340 - Dwelling apartment or	Removed.	Replaced by revised multi-family definition
multi-family or condominium.		
17.04.350 - Dwelling, two-family	Removed.	Replaced by duplex
or duplex.		
17.04.395 Existing manufactured	Removed.	Obsolete language
home park or subdivision.		
17.04.400 Expansion to an	Removed.	Obsolete language.
existing manufactured home park or		
subdivision.		
17.04.415 - Family	Removed,	Obsolete language.
17.04.483 Footprint	Added.	New definition.
17.04.490 – Front Lot Line	Revised.	Removed unclear language and reference to a figure in the code
		which does not exist
17.04.550 – Height.	Revised.	Added language to defined height measurements for flat and
		mansard roofs and parapets.
		Clarifies height measurement in flood zones.
		Lists specific allowable projections not considered part of height
		measurement.
17.04.585 – Hotel	Revised.	Revised to clarify that this definition does not include transitional
		shelters.
17.04.603 Internal conversion for	Added.	New definition.
existing single-family detached		
residential units.		
17.04.730 - Manufactured home.	Revised.	Revised to reflect current state and federal definitions.
17.04.775 – Motel	Revised.	Revised to clarify that this definition does not include transitional
		shelters.
17.04.780. Multi-family residential	Revised.	Changes definition from three to five or more dwelling units on
units.		one lot. Units do not have to be structurally attached. May
		include a variety of dwelling types.

17.04.810 – Net developable area.	Revised.	Refers to current Natural Resource overlay rather than Water Resource overlay in OCMC 17.49.
17.04.1140 – Single-family detached residential units	Revised.	Revised to clarify that manufactured homes can be single-family detached residential units and that ADUs can be attached to a single-family residential detached unit.
17.04.1135 – Single-family attached residential units	Revised.	Clarifying that single-family attached residential units include townhouses or rowhouses.
17.04.1195. Story	Revised.	Updates definition of a story to include basements that meet definition.
17.04.1311. Transitional shelter	Added.	New definition.
Chapter 17.06 Zoning District Cla	ssifications	
17.06.015 – Classification of zoning districts	Changing names of zoning designations to reflect new zoning district naming conventions	Revised for clarity and consistency
Chapter 17.08 Low Density Reside	ential Districts	
17.08.010 – Designated	Identifying R-10, R-8 and R-6 Districts are designated for low density residential development	Consolidating low density districts into a single chapter
17.08.020 – Permitted Uses	 Permitted uses from R-10, R-8 and R-6 combined and moved to this section Adding internal conversions and corner duplexes as permitted uses 	 Consolidating into a single chapter. Equitable Housing recommendation to allow diversity of housing types
17.08.025 – Conditional uses	 Conditional uses from existing R-10, R-8 and R-6 districts combined and moved to this section Adding transitional shelter as a conditionally permitted use 	 Consolidating into a single low-density districts chapter Equitable Housing Recommendation to allow transitional shelters as conditional use
17.08.030 – Master Plans	New section which allows single- family attached residential units within low density zones if	Equitable housing recommendation to allow single- family attached residential units as part of a master plan.

	reviewed pursuant with the Master Plan process	
17.08.035 – Prohibited Uses	 Prohibited uses from existing R- 10, R-8 and R-6 districts combined and moved to this section 	Consolidating into a single low-density districts chapter
17.08.040 – Dimensional Standards	 Dimensional standards consolidated into a chart Removing story requirement in height standards Allowing a higher lot coverage % if property includes an ADU Changes to interior yard setbacks to have only one setback requirement 	 Equitable housing recommendation – ease of navigation of code Redundant and unnecessary to have a height and/or story requirement Equitable Housing recommendation to allow opportunities for more ADUs Current standards with two different interior setback requirements are confusing and unnecessary
17.08.050 – Density standards	 Converting current density standards into a dwelling units per net developable acre figure Exemptions to clarify that ADUs and internal conversions do not count towards density calculations, corner duplexes count as a single unit, and cluster housing is subject to different density standards 	 Clarifying and simplifying existing density standards Equitable housing recommendation to encourage development of different housing types
Chapter 17.10 Medium Density Res	sidential Districts	
17.10.010 – Designated	Identifying R-5 and R-3.5 Districts are designated for medium density residential development	Consolidating medium density districts into a single chapter
17.10.020 – Permitted Uses	 Permitted uses from R-3.5 and R- 5 combined and moved to this section 	Consolidating into a single chapter.

	 Adding internal conversions, corner duplexes, 3-4 plexes, and manufactured home parks as permitted uses 	Equitable Housing recommendation to allow diversity of housing types
17.10.025 – Conditional uses	 Conditional uses from existing R-5 and R-3.5 districts combined and moved to this section Adding transitional shelter as a conditionally permitted use 	 Consolidating into a single medium-density districts chapter Equitable Housing Recommendation to allow transitional shelters as conditional use
17.10.030 – Master Plans	New section which allows multi- family residential units within medium density zones if reviewed pursuant with the Master Plan process	Equitable housing recommendation to allow multi-family residential units as part of a master plan.
17.10.035 – Prohibited Uses	 Prohibited uses from existing R-5 and R-3.5 districts combined and moved to this section 	Consolidating into a single medium-density districts chapter
17.10.040 – Dimensional Standards	 Dimensional standards consolidated into a chart Removing story requirement in height standards Allowing a higher lot coverages if ADU, single-family attached or 3-4-plex Changes to interior yard setbacks to have only one setback requirement 	 Equitable housing recommendation – ease of navigation of code Redundant and unnecessary to have a height and/or story requirement Equitable Housing recommendation to allow opportunities for more housing types Current standards with two different interior setback requirements are confusing and unnecessary
17.10.050 – Density standards	 Converting current density standards into a dwelling units per net developable acre figure Exemptions to clarify that ADUs and internal conversions do not 	 Clarifying and simplifying existing density standards Equitable housing recommendation to encourage development of different housing types

	1	
	count towards density	
	calculations, corner duplexes	
	count as a single unit, and cluster	
	housing is subject to different	
	density standards	
Chapter 17.12: High Density Resid	ential District.	
17.12.020 - Permitted uses.	 Adding ADUs, duplexes, cluster housing, internal conversions, SFR attached, and 3-4 plexes as permitted uses 	Equitable Housing recommendation to allow opportunities for more housing types
17.12.025 - Conditional uses.	 Removing live/work units Transitional shelters now allowed as a Conditional Use of up to 10 beds. 	Equitable Housing Recommendation: No longer allow live/work units. Staff would like the Planning Commission to reconsider allowing as a Conditional Use.
17.10.040 - Dimensional standards.	Remove maximum stories for height and rely on height as measured in feet.	Equitable Housing Recommendation
	Lot coverage of 80% added.	Equitable Housing Recommendation
	Single-family attached lot width minimum	Equitable Housing Recommendation
	and setbacks reduced.	Equitable Housing Recommendation
17.12.050 - Density standards.	Clarify density standards based on	Equitable Housing Recommendation
17.12.030 - Density standards.	existing regulations in other chapters.	Equitable Housing Recommendation
	Offer up to a 20% density bonus for	Equitable Housing Recommendation
	affordable units at 80% AMI for a	Equitable Housing Recommendation
	minimum term of 30 years. Developer	
	may add 2 market rate dwellings for each	
	affordable unit provided.	
Chapter: 17.14 Single-Family & Du	ıplex Residential Design Standards	
	Added.	Equitable Housing Recommendation
		New Chapter. Adopted from 17.20.
		R-10, R-8 and R-6 Chapters combined into a low-density
		residential chapter.

17.14.010 – Purpose.		
17.14.010.F.	Revised. • Removes the ability of the community development director to approve an alternative design that meets the intent of the chapter.	Clarifies that the standards are clear and objective or the applicant may choose an alternative review process. Clarified procedures that all of these unit types are processed as a Type I over-the-counter permit with no discretion.
17.04.020	Revised.	Applies to single-family and duplexes. Clarifies that ADUs are not garages.
17.14.035 - Corner lots and through lots.	Revised.	Specifies separate standards for single-family homes and duplexes on corner lots.
17.14.070.B.		Codifies alternative review process.
17.14.050 - Main entrances.	Revised.	Requires porch in all cases.
17.14.060. – Corner Duplexes.	Add standards for corner duplexes including a requirement that the units are located in the same building, have one main entrance on the primary façade facing (both not allowed), comply with the same design standards as single-family homes, and that the units be similar in design.	Equitable Housing Recommendation Corner duplexes are now allowed. New standards for Corner Duplexes.
17.14.080. Residential yard landscaping and tree requirements.	Allow residential tree plantings to occur anywhere on the property regardless of the underlying zoning designation and clarify that the tree requirements are limited to the time of development. Removes	Equitable Housing Recommendation

	landscaping and shrub requirements.	
	Retains tree-planting requirements.	
Chapter 17.16: 17.16 Single-Family	y Attached Townhouse Residential Design S	
	Added.	New Chapter.
		Equitable Housing Recommendation
		Adds Purpose, Design Standards, Driveway Access and Parking,
		and Outdoor space and tree requirements for Townhomes.
		Provide clear guidance on access and driveway standards which
		require shared driveways to retain on-street parking, and limit
		onsite driveway width.
•	g, Internal Conversions, Live/Work Units, Ma	nufactured Homes, and Manufactured Home Parks Residential
Design Standards		
	Revised. Major additions to existing chapter.	New Chapter with Detailing standards for ADUs (adapted from existing OCMC 17.54.090),
		Cluster Housing (adapted from OCMC 17.62.059),
		Internal Conversions, Live/Work Units (adapted from OCMC
		17.54.105),
		Manufactured Homes, Manufactured Home Parks.
17.20.010. Accessory Dwelling	Revised.	Provide more flexibility with regard to ADU regulations.
Units		Equitable Housing Recommendation
	 Remove owner-occupancy 	
	restriction.	
	Allow one ADU per single-family	
	dwelling.	
	 Eliminate off-street parking 	
	requirements for ADUs,	
	 Simplify dimensional standards. 	
	• Increase size limit to 60% of main	
	dwelling or 800 sf.	
	 Increase lot coverage 5-10% per 	
	zone	
	 Simplify design compatibility 	
	standards.	

17.20.020. Cluster Housing	 Exempt ADUs from density standards. Adapted from OCMC 17.62.059 Cottage Housing. Introduce new cluster housing standards as a significant revision to the existing cottage housing standards Allow a wider variety of residential units depending on zone density. Increase allowed max. unit size to 1500 sf Retain density bonuses up to 2x Greater flexibility for open space reduced to 400 sf / dwelling 	Equitable Housing Recommendation Updated design standards for more diverse types Flexibility for lot creation, condos or fee-simple through subdivision process.
17.20.030 - Internal Conversions	 Added New Section. Permit conversion of existing single-family homes into multiple units through internal divisions to encourage the preservation of existing homes, new density increases for internal conversions, no additional off-street parking requirements Internal conversions would require a building permit review, and historic review if applicable. Allow internal conversion of homes at least 20 years old 	Equitable Housing Recommendation. Allowing for new housing types, while preserving neighborhood character

	 Allow a maximum of four units through an internal conversion, or a combination of internally converted units and an ADU, at a ratio of one allowed unit per 2,500 SF of site area. Expansion limitations. Similar to ADUs, no additional off-street parking requirements 	
17.20.040 – Live-Work Units.	Revised section (F).	Removed deed restrictions since the requirements are redundant with existing codes and policies. Remove live/work units as a Permitted Use in R-2 due to incompatibility and limited interest in this development type. It will continue to be a Conditional Use.
17.20.050 – Manufactured Homes.	 New section. Adds purpose statement Permitted in all zones that permit single family per ORS. Adds development standards. Should they be subject to Single Family Residential Design standards of OCMC 17.14? 	Equitable Housing Recommendation. Provides clear and objective standards for manufactured homes in existing parks, which do not exist in the current code.
17.20.060 - Manufactured Home Park	 New section. Adds standards for new manufactured home parks. Type III review for new parks. Type II for modifications to existing parks. Adds development requirements: Minimum size 2 acres 	Equitable Housing Recommendation. Provides clear and objective standards for new manufactured home parks and modifications to existing parks. Current code is silent on standards making review of modifications to existing parks difficult, and discouraging new MH parks.

August 6, 2018 Draft

	 15' setbacks around outer park boundary Screening10-foot setbacks from private streets, min. 15' separation between adjacent units / structures. Internal private street width 24' min. pavement, w/ sidewalk 4' wide on one side. Parking on one side OK if 30' pavement width. On-site parking space 1 per unit. 	
Chapter 17.24 NC Neighborhood Commercial District		•
17.24.020 – Permitted Uses.	Added 3-4-plex as permitted with a nonresidential use, when not exceeding 50% of the building square footage.	Allows properties to develop as residential mixed use with 3-4 units in addition to commercial or other uses in NC, provided the residential does not exceed more than half the square footage of the building.
17.24.035 - Prohibited Uses.	 Added new prohibited uses. K. Transitional shelters. L. Outdoor Mobile Food Carts or Vendors, except with a special event permit. 	Clarify the uses are not allowed in the zoning designation, as there are other zoning designation which the uses are listed as permitted.
17.24.040 –	Clarified density standards for residential development	There are currently no density standards for this zone.

Dimensional Standards

equal to R-3.5

This adds density standards equal to R-3.5 as a base line

duplexes. The density does not apply to residential units above non-residential uses such as commercial/office or

to account for the allowance for SF attached and

live/work.

Chapter 17.26 HC Historic Commercial District 17.26.035 – Prohibited uses.	 Added new prohibited uses. C. Transitional shelters. D. Outdoor Mobile Food Carts or Vendors, except with a special event permit. 	Clarify the uses are not allowed in the zoning designation, as there are other zoning designation which the uses are listed as permitted.
17.26.050.B.10 – Dimensional standards	Any new duplex lots shall meet the minimum lot size, minimum density, and setbacks for duplexes in the R-3.5 zone.	There are currently no density standards for this zone. This adds minimum density standards equal to R-3.5 as a base line to account for the allowance for SF attached and duplexes.
Chapter 17.29 MUC Mixed Use Corridor District		•
17.29.020 - Permitted uses—MUC-1 and MUC-2.	 Adds new permitted uses: M. 3-4 plex AB. Transitional shelter AC. Parking not in conjunction with a primary use when the primary use parking is not needed on private property; AD. Hotels and motels, commercial lodging; 	 Specify that 3-4 plex are allowed since they are a new residential type which was previously a part of multifamily. Allow year round transitional shelters, which have been allowed under emergency Ordinances in this zoning designation for the past few years during the winter months. Allow parking lots to be used after hours by the public Allow hotels and motels as permitted, as that is more consistent with the other uses allowed in the zoning designation as well as the character of MUC.
17.29.030 - Conditional uses—MUC-1 and MUC-2 zones.	 Removed hotel/motel Removed "structures and lots" under parking not associated with a primary use and added" on private property". Removed types of passenger terminals. 	 Hotels and motels; commercial lodging changed to a permitted use. See note above. Amended the code to be the same level of specificity as other uses as well as clarified that the conditional use applies to private property, as opposed to public on-street parking.

		Removed passenger terminal types to be consistent with the level of specificity provided in the code.
17.29.040 - Prohibited uses in the MUC-1 and MUC-2 zones.	K. Outdoor Mobile Food Carts or Vendors, except with a special event permit.	Clarify the uses are not allowed in the zoning designation, as there are other zoning designation which the uses are listed as permitted.
17.29.050.H and 17.29.060.J - Dimensional standards—MUC	Revised to include density minimum for multi-family use.	Adds residential density minimum of 17.4 units per net acre for efficient use of land, excluding residential vertical mixed used and live/work.
Chapter 17.32 General	Commercial District	
17.32.040 – Prohibited Uses	 Added: F. Transitional Shelters G. Outdoor Mobile Food Carts or Vendors, except with a special event permit. 	 Clarify the uses are not allowed in the zoning designation, as there are other zoning designation which the uses are listed as permitted. Requires special event permit issued by Public Works Department. Additional PW requirements apply.
17.32.050.H -	Revised to include density minimum for multi-family	Adds residential density minimum of 17.4 units per net acre for
Dimensional standards.	use.	efficient use of land, excluding residential vertical mixed used and live/work.
Chapter 17.34 Mixed Us	se Downtown District	
17.34.030 - Conditional uses.	Revised. • AC. Parking not in conjunction with a primary use when the primary use parking is not needed on private property;	Amended the code to be the same level of specificity as other uses as well as clarified that the conditional use applies to private property, as opposed to public on-street parking
17.34.040 - Prohibited uses.	Added:	Clarify the use not allowed in the zoning designation, as there is another zoning designation which the use is permitted.
	I. Outdoor Mobile Food Carts or Vendors, except with a special event permit.	

17.34.060.D - Mixed-use downtown dimensional standards—For properties located outside of the downtown design district.	Deleted limitation on maximum building height from 75' to 45' for the following: - Properties between Main Street and McLoughlin Boulevard and 11th and 16th streets; - Property within one hundred feet of single family detached or detached units.	The rationale for placing the height limits is unknown and appears a bit arbitrary. The property between 11 th and 16 th is significantly lower than the neighboring properties on the bluff and the reduction is not consistent with the character and expectations of the regional center nor the pattern of building heights within the zoning designation. No other location limits height based on existing uses and not zoning designation. Limiting heights based on existing uses nearby does not take into account the City's topography, creates an inconsistent urban design with a variety of heights in our regional center. Due to the lot pattern and configuration, the height of properties on Main Street are limited. Height limits in these areas restrict viability of residential uses in the Mixed Use downtown, which is a priority in various adopted city plans for the waterfront and downtown areas, and a necessary component for an urban regional center. The height limit is maintained around the End of the Oregon Trail.
17.34.060.J and 17.34.070.J Dimensional Standards	Revised to include density minimum for multi-family use.	Adds residential density minimum of 17.4 units per net acre for efficient use of land, excluding residential vertical mixed used and live/work.
17.34.070.I	Amend minimum landscaping to 5% and lot coverage	Previous standard was 100% lot coverage and 0% landscaping.
Dimensional Standards	to 95%.	
within the Downtown		
Design District		
Chapter 17.35		
Willamette Falls		
Downtown District		

17.35.020 – Permitted Uses	 AC. Parking not in conjunction with a primary use when the primary use parking is not needed on private property Changed formatting to be consistent with other chapters. 	 Allow parking lots to be used after hours by the public Amended formatting for clarity and consistency
17.35.030 – Conditional uses	Revised. D. Parking not in conjunction with a primary use when the primary use parking is not needed on private property;	Amended the code to be the same level of specificity as other uses as well as clarified that the conditional use applies to private property, as opposed to public on-street parking
Chapter 17.36 GI Gene	ral Industrial District	
17.36.035 – Prohibited Uses	Added. A. Outdoor Mobile Food Carts or Vendors, except with a special event permit.	Requires special event permit issued by Public Works Department. Additional PW requirements apply.
Chapter 17.37 CI		
Campus Industrial District		
17.37.035 – Prohibited Uses	A. Outdoor Mobile Food Carts or Vendors, except with a special event permit.	Clarify the uses are not allowed in the zoning designation, as there are other zoning designation which the uses are listed as permitted.
Chapter 17.39 I	1	
Institutional District		
17.39.040 - Conditional uses.	Added: I. Police Station	The zoning code identifies emergency services (including Police and Fire) together in nearly all zoning designations, though did not list police as a Conditional Use (though lists Fire) in the Institutional District.

17.39.045 - Prohibited	Added:	Clarify the uses are not allowed in the zoning designation, as
uses.	C. Outdoor Mobile Food Carts or Vendors, except with a special event permit.	there are other zoning designation which the uses are listed as permitted.
Chapter 17.41 – Tree		
Protection		
	Renamed Chapter from Tree Protection Standards to Tree Protection, Preservation, Removal and Replanting Standards	Renamed chapter for greater clarity
17.41.040, 17.41.050	Renamed section headers.	Renamed section headers for consistency
17.41.060	Clarify when section 17.41 applies	Add clarity that trees required to be planted in this chapter do not include required trees in stormwater facilities or in pedestrian and bicycle accessways.
17.41.060-17.41.120	Combine sections in the same mitigation planting option.	Combine sections for clarity.
Chapter 17.50 Adminis	tration and Procedures	
17.50.303 Summary of decision-making process	Add General Development Plan amendment	Clarify the process by which a general development plan amendment is reviewed
17.50.040 - Development review in overlay districts and for erosion control.	Added: Historic Overlay under Chapter 17.40,	Clarify when compliance with historic district occurs with development.
17.50.050 – Preapplication conference.	 Reformatted for clarity Clarify that a pre-application conference is required prior to completing a Type II-IV and/or Legislative application (except for Historic review). Clarify when pre-application conferences may be valid for a year. 	 Language reordered for clarity Clarify a pre-application conference is required prior to a complete application for certain types of applications. Remove The validity of a pre-application conference may be extended by 6 months if the code has not been amended or the proposal has not changed significantly.

17.50.055 - Neighborhood association meeting.	 Change the requirement to provide option for applicant to contact CIC and neighborhood associations via email and remove requirement for certified mail notice. Remove requirement to provide sign-in sheet for neighborhood association meeting. Add requirement to show email/mail correspondence. 	 Allow easier and more timely communication over email between applicants and CIC/neighborhood associations. Remove the requirement to provide a sign-in sheet from neighborhood meetings, as it does not relate to any criteria. Add requirement to show applicant's have reached out to CIC/neighborhood associations.
17.50.070 - Completeness review and one hundred twenty-day rule.	 Revised to clarify procedures when an application exceeds 180-days without completeness Adding procedures for an expedited review period of 100 days for affordable housing projects 	 The revision clarifies that the City gets a 30-day review regardless of which point in the 180-day period the application is submitted. Allow more timely review process of projects which would create affordable housing
17.50.080 - Complete application—Required information.	 Reformatted/reordered for clarity Remove requirement for physical copies of application Type II-IV applications and only require one paper copy for Type I applications Clarify that applicants have the option to pay for City-provided mailing labels or provide their own labels 	 Language reordered for clarity Paper copies are not needed as all transmittals and reviews are done electronically. Not requiring paper copies also results in easier archiving and is environmentally friendly. The revision codifies existing practices for mailing labels (option to provide your own or pay for City-provided).
17.50.090 – Public Notices	 Replacing planning manager with community development director Replacing requirement for a newspaper notice for Type III and IV applications with requirement to post on website 	 Revisions for clarity Based on feedback from Oregon City residents and planning staff, the public is more likely to check the city website than the newspaper for upcoming public hearings. Additionally, posting notices in the newspaper is expensive for the City.

17.50.130 - Conditions of approval and notice of decision.	 Revision specifying approval standards include overlay district standards master plan compliance, and public works design standards. 	 Revision for clarity. Language is currently in a different code section, moving to 17.50.130 for clarity resulting in more organized and clear code.
17.50.140 – Performance Financial guarantees.	 Relocating financial guarantee from 17.62 to 17.50 and language revisions Adding fee-in-lieu requirements 	 Relocation to more appropriate chapter and minor language revisions for clarity and consistency Codifying current fee-in-lieu practices and procedures for public improvements
17.50.141 – Public improvements - Warranty	Adding public improvement warranty requirements	 Codifying practices and procedures for warranty associated with public improvements.
17.50.190 - Appeals.	 Replacing planning manager with community development director Various revisions to clarify appeal procedures (mailing notice of appeal, posting on city website, requiring mailing address for public commenters) 	 Revisions for clarity Clarifying appeal procedures and noticing requirements to allow for clear appeal process and proper notification
17.50.200 - Expiration of an approval.	Revision specifying that a land division approval expires if not submitted to the Clackamas County Recorder's Office within two year of approval.	• Clarify that the preliminary approval of land divisions expire if not submitted to the Clackamas County Surveyors Office within 2 years. This is the simplest deadline to administer, since all requirements for platting, including public improvements, must be met prior to recordation.
17.50.220 - Reapplication limited.	Section removed.	• Remove the 1 year waiting period for similar applications. Re-application should be permitted at any time without limitation at the applicant's own risk.
17.50.240 - Conformity of permits.	 Adding requirement to resolve any and all city liens that may be filed against a property prior to final approval of a project. 	Provides an early opportunity to recover or pursue outstanding liens

17.50.260 – Reconsideration of a final decision	Remove process for reconsideration of a final decision	Remove process for reconsideration of a final decision.
17.50.290 - Fees	Adding that all fees are due upon submittal of an application with the exception of actual attorney fees which are required within 60 days of appeal decision	Adding clarity and codifying process for collecting actual attorney fees associated with an appeal.
Chapter 17.52 Off-Stree		
17.52.010	Clarify that this chapter does not apply to single-family, duplexes, ADU's, and internal conversions.	Add clarity as to the applicability of the chapter.
17.52.020.A	 Amend parking minimums for multi-family change from 1-1.75 per unit depending on number of bedrooms to 1 per unit. Amend parking maximums for multi-family from 1.5-2.5 per unit to 2.5 per unit. Identify parking standards for 3-4 plex as a min of 1 per unit and max of 2.5 per unit. Identify parking standards for cluster housing as a min of 1 per unit and max of 2.5 per unit. Identify parking standards for transitional shelters to be the same as group homes 	 Parking min and max amended for consistency with other types of housing which do not define parking by number of bedrooms. The average household size is also not consistent with the number of bedrooms. The number creates difficulty when modifying existing units. Parking numbers were added for new residential types to be consistent. Parking for transitional shelters was identified as group homes which may have the same likelihood of automobile ownership.
17.52.030.A	Remove standards about driveway slopes.	Relocated to 16.12.035
17.52.030.E	Exclude projects with 75% or more residential use from carpool and vanpool requirements	Remove barrier for residential projects.
17.52.040	 Table A Amend multi-family to include 5 or more units Identify bicycle parking for 3-4 plex as the same as multi-family 	 Amend to conform to the new definition of multi-family. Assure bicycle parking for 3-4 plex at the same rate as multi-family Assure bicycle parking for transitional shelters.

	 Identify bicycle parking for transitional shelters at the same rate as a care facility C & D: Remove redundant requirements for bicycle parking and revise. 	 Standard redundant as a requirements for bicycle parking and reformat for ease. Connectivity requirements relocated to 17.62.050.A.
17.52.060 Parking lot landscaping	 Apply to parking lots with more than 5 stalls. Remove unclear standards and reformat for consistency Allow arborist to approve tree species Amend interior parking lot landscaping standards to require 1 tree for every 4 spaces, rather than 6 and require a minimum of 1.5 shrubs per parking space rather than space 4 feet apart on average. Remove requirement for pedestrian walkways to have trees in addition to the other minimum requirements. Relocate compliance with traffic sight obstructions and stormwater manual to 17.62.050.A.2. Amend alternative landscaping plan to reference back to 17.62.015 with the associated criteria. 	 Allow smaller parking lots to be exempt from the rigid landscaping standards. Remove unclear standards and reformat for consistency. Consistency throughout code by allowing arborists to approve tree species. Reorder and simplify the landscaping requirements for ease. Interior parking lot landscaping requirements revised to be more clear and objective and provide transparent guidance including identifying landscaping based on the number of parking stalls rather than spacing. Criteria more appropriate for other chapters relocated.
17.54 Supplemental Zoning Regulations and Exceptions		
17.54.010.B Accessory buildings and uses	Amend section to not allow accessory dwelling units to be reviewed under this accessory building standards and relocate all ADU language	 All standards for ADU's relocated to 17.20 for ease of use. Reworded the fence, hedge, walls, and retaining walls standards for clarity. Exclude height limits for fences, hedges, walls, retaining walls in the right of way from standards.

17.54.105 Live/Work units	Relocate all live/work language	All standards for live/work units relocated to 17.20 so they may be easily identified.
17.54.115 Mobile Food Carts	Add standards for mobile food carts on private property in the Willamette Falls Design District	Add standards for mobile food carts on private property in the Willamette Falls Design District. Allowed on property for up to 5 hours within a 24-hour site with little design requirements and a more typical minor site plan and design review process with exceptions.
Chapter 17.62 Site Plan ar	nd Design Review	
17.62.015 Modifications	Add section identifying applicability of modifications and limiting the criteria which may be modified and renumber standards.	Add parameters to limit the modifications to development standards and provide clear guidance of when Variances are required.
17.62.030 When required	Clarify when site plan and design review is required.	Update section to capture new residential districts and housing types.
17.62.035 Minor site plan and design review	 Allow Type I site plan for: Conditional and nonconforming uses provided the square footage does not increase. Type I Master Plan amendments Mobile food carts on site less than 5 hours in the WFDD 3-4 plex, single and two family dwellings, and accessory dwelling units 	 Allow commercial uses such as churches and schools to streamline nondiscretionary review processes, provided the size of the use does not increase. Add clarity for processing Type I master plan amendments Allow mobile food carts to be temporary located on private property in WFDD with a streamlined review process Equitable Housing Recommendation: Add a Type I Master Plan Amendment option and 3-4 plex residential projects as applicable for a Type I Site Plan and Design Review.
17.62.040 Items Required	Remove requirement for physical material boards and allow electronic.	Allow electronic submittals which reduces the space and cost for retaining physical files indefinitely.

	 Remove redundant requirement for erosion and sediment control plan. Remove requirement for legal description of site 	 Amend requirements for submittal to exclude an erosion control plan (this is still required prior to construction, but unnecessary for preliminary site plan review). The full legal description is not needed, as the map and tax lot is provided on the application form.
17.62.050.A. Standards	 Remove landscaping reduction for pervious material Clarify landscape plan needed for change to landscaping in parking lots. Relocated landscaping standard in downtown design district to zoning designation. Add standard to identify that landscaping shall comply with traffic sight obstructions limitations in 10.32. Removed access, driveway, and sidewalk standards Remove standard about compatibility, materials, and historic protection. Consolidate cross references to other section in the code. Amend pedestrian circulation requirements to add clarity when connections should not cross a drive aisle, clarify which portions of the site should be connected by a onsite sidewalk, clarified prohibition of external stairs for residential. Removed requirement for continued maintenance. Standard for continued compliance with applicable, federal, state and city standards simplified. 	 Reduction did not have clear standards for approval. Landscaping reductions may occur through 17.62.015 with associated criteria. Added clarification. Consolidate all landscaping standards in the downtown design district to the zoning designation where the 10% was in conflict with a 0% landscaping requirement. Provide clarity about traffic sight obstructions. Driveway, access, and sidewalk standards consolidated in chapter 16.12. Remove standard which is not clear and objective. The standard is unclear and redundant, as compliance with other sections such as material standards and historic resources protection in 17.40. Consolidate references to other chapters. Provide clarity to existing onsite sidewalk standards and rewrite language for simplicity. Maintenance requirement removed as it is unnecessary and does not include any criteria to determine adequate maintenance. Clarified language about compliance with other applicable regulations, as it was too detailed and cumbersome language. Equitable Housing Recommendation: Building Division review will determine compliance with ADA standards. Density standards consolidated to the zoning designation for clarity.

	 Remove standard reviewed by Building Division for ADA. Remove standard regarding density, instead incorporating it into the zoning district chapters. Preferred building materials removed. Removed administrative section on conditions of approval. Added criteria for owner signature, demonstrating no outstanding liens for the city and taxes paid. 	 Preferred building material standards are not required and thus removed. Conditions of approval section consolidated into 17.50. Added criteria associated with submittal requirements to allow authority to require compliance.
17.62.050.B Institutional, office, multi-family, retail, and commercial building standards	 17.62.055 consolidated into 17.50.050 Multi-family standards generally integrated into commercial standards to allow a more transparent review process. Section exempts structures under 1,000 square feet (such as garages, sheds, etc) when other primary buildings are located onsite. Remove standard about "contributing to the uniqueness of the site" and modifying franchise designs to comply with the applicable standards. Remove requirement that multiple buildings in a development shall have similar elements. Combine sections related to design elements to increase building setback. Amend standard for building orientation. Primarily reworded for clarity. Amend entranceway standard to combine multi-family and commercial standards. The intent of previous standard retained. Clarify corner lot standard does not apply to multi-family. 	 Standards consolidated for ease of navigating. Multi-family and commercial standards integrated into a single set of standards due to increased overlap for orientation, transparency, articulation, entranceways, etc. Exempt accessory structures such as storage buildings from design requirements unless they are the only building on a site. Remove standards which are unclear or difficult to enforce. Compatibility is provided though compliance with all other applicable standards. Provided the criteria are met, a variety of building design provides interest. Building setback may be reviewed in a single criterion rather than two with redundant language. Building orientation amended to provide clarity to existing standard. Entranceway standards for multi-family and commercial were combined as they included similar menus to highlight the entranceway of a building. No change to corner lot standard, just clarification of existing standards.

	 Variation and massing standards integrate commercial and multi-family standards and revised for clarity. Wall articulation revised to remove redundant standards, and integrate multi-family building details which require a certain number of design details depending on the façade at 30' intervals. Exception provided for 0 foot setback on the property and adjacent property. Transparency clarified to state at 5' height or below (was pedestrian level) and standard for 15% transparency for all other floors and elevation added. Language relocated/reformatted. Roof standards amended to have consistent standards despite building use. Simplified to regulate only roofs which face a street and require a maximum continuous roofline of 75' without a cross gable or significant change in height. 	 Variation in massing standards changed to be more clear and objective. Standards mix commercial and multifamily requirements (and in some cases allow less building articulation) to result in standards which are clear and objective and easily understood. Requirements for 10' deep x 30' wide modulation every 120 feet and 1' deep x 2' wide projections/recesses every 30 feet. Articulation/building details revised to integrate commercial and multi-family, but retains nearly the same intent. Color removed from standards, as it is temporary and subject to change without permits. New exception provided for properties with 0' interior/side/rear setback to allow development of two buildings with no setback to be constructed on different properties next to each other without design features which will be unseen. Clarified height of transparency at pedestrian level and added transparency requirement for all floors and all elevations to balance any relaxed design or modulation requirements. Equitable Housing Recommendation: Roofline standards simplified to not be based on the changing use of a building but the length of the building. Standards limiting parapet height removed due to minimum building heights in some zoning designations.
17.62.056 Additional standards for large retail establishments	 Simplified and clarified applicability to match standard. 	Amended standard for clarity and consistency.
17.62.057 Multi-family Usable Open Space Requirements	 Design standards relocated to 17.62.050.B and this section changed to open space requirements. Open space requirements amended to combine public and private open space. Size amended 	Limited to open space requirements for clarity. The building design standards were very similar to commercial design standards and created confusion for development with residential and mixed use in the same building.

	 to be 100 sq. ft. in residential zones and 50 sq. ft. in other zones. Removed requirement for windows to be recessed/projected multi-family. Requirement for diversity of building types removed for developments of 4 or more buildings. Diversity of unit types for sites with more than 25 units removed. Removed standard for 13' minimum height ground floor. 	 Equitable Housing Recommendation: Open space requirements included some conflicts and inconsistencies. Standards amended to provide clear direction for useable open space for multi-family. Equitable Housing Recommendation: Recessed/projection for multi-family windows difficult and expensive for development community. Diversity of building types removed to allow flexibility and the standard did not provide clear enough direction about the minimum diversity requirements. Little public interest in requiring diversity in the types of units within a single development. Ground floor height standard difficult to implement, particularly when multi-family is built for that purpose and not likely to change to commercial.
17.62.057 Accessory Dwelling Unit, Cluster Housing, Internal Conversions, Live/Work Units, and Manufactured Home Parks, and 3-4 Plex Standards.	Provides cross-reference for these housing types in commercial and multi-family zoning designations.	Cross-reference provided for clarity. The use of a zoning designation may not provide for these unit types to be constructed as new, though this standard provides guidance for existing sites.
17.62.059 Cluster Housing	 Name changed from cottage to cluster housing and cross reference provided. 	Relocated to separate chapter for clarity.
17.62.065 Outdoor Lighting	Standards simplified to remove specific lighting levels onsite and rather identify where lighting should be provided and maintain lighting a maximum lighting level of 0.5 footcandle at surrounding properties and across the street.	The lighting standards were extremely specific and inconsistent with the level of detail in the remainder of the code. The changes maintain the lighting requirements, but provide more flexibility.

	Standards for floodlights, shielded lighting, light poles, upward lighting, and flashing lights maintained.	
17.62.085 Refuse and recycling standards for commercial, industrial, office, institutional, and multi-family developments	Added new housing types to acknowledge that refuse areas not required for ADU's, etc.	New housing types added for clarity
17.62.090 Implementation	Language amended for clarity.	Language explains how to apply site plan and design review standards to add clarity.
17.62.095 Performance Guarentee	Remove section	Relocate to more appropriate chapter (17.50)
Chapter 17.65 Master Plans		
17.65.010 Purpose and intent	 Clarify that the chapter is meant to include residential review. Minor text changes for clarity 	Equitable Housing Recommendation: Expand language to allow clarity for residential developments
16.65.020 Whats included in a master plan	 Remove standard that master plan must be a minimum of 5 years duration Add clarification as to the benefits of a master plan 	A master plan may be constructed in a duration of less than 5 years.
17.65.030 Applicability of the Master Plan Regulations	 Remove requirement for institutional development to be more than 10 acres Allow voluntary master plan for sites 2+ acres. 	 The requirement makes it difficult to incrementally upgrade existing facilities which are primarily built out and do not have a master plan such as the cemetery. Equitable Housing Recommendation: Expand voluntary master plans to properties over 2 acres to allow flexibility.
17.65.040 Procedure	 Clarify that concurrent review is processed at the highest level of any application. 	Adds clarity about review process

	 Add relationship to other reviews to ensure comprehensive review Moving Duration of General Development Plan section and duration of detail development plan sections to Procedure section 	 Ensures that the development will be reviewed comprehensively and its cumulative impacts considered Moving the duration of general and detailed development plans to procedures section resulting in a code that is easier to navigate and understand for applicants.
17.65.050 – General Development Plan	 Minor language revisions for clarity and consistency Adding geologic hazards for site description requirements Adding requirement for a phasing plan for public improvements Adding section specifying additional submittal requirements for residential and mixed use projects Adding an approval criteria that the development must be consistent with underlying zones and overlay districts Adding approval criteria for general development plans for residential developments Relocating Duration of General Development Plan to procedures section 	 Revisions for clarity Requires applications to address geologic hazards overlay if applicable. Provides clarity of submittal requirements for applicants and clarifies that public improvements may be phased in the master plan process Provides clarity of submittal requirements for applicants and codifies application materials required for staff's review of residential/mixed use developments Ensures consistency with zoning district and overlay district regulations and ensures the application addresses all applicable regulations Existing code allows for master plans for residential developments, but does not provide standards or approval criteria. Adding approval criteria results in a clear code with clear and objective standards for residential developments being reviewed under the master plan process Relocation of subsection to more appropriate section resulting in a code that is easier to navigate and understand
17.65.060 – Detailed Development Plan	 Minor language revisions for clarity and consistency Adding submittal requirements for residential projects that are not subject to OCMC 17.62 	 Revisions for clarity Submittal requirements reference chapter 17.62, however, Chapter 17.62 does not apply to residential developments, therefore, the revision specifies submittal

	Relocating Duration of Detailed Development Plan to procedures section	requirements for those developments not subject to Chapter 17.62 Relocation of subsection to more appropriate section resulting in a code that is easier to navigate and understand
17.65.070 – Adjustments to development standards	 Various language revisions for clarity and consistency Adding section identifying which regulations may be adjusted through a master plan adjustment process Adding reduction of minimum density of residential sites as a regulation that may not be adjusted 	 Revisions for clarity In order to provide a non-discretionary adjustment process, which can be reviewed at a Type II level as allowed by the current code, this section specifies which standards are eligible for adjustments. Specifying that applicants may not request an adjustment to allow a residential development to be below the minimum required density.
		Allow an applicant to propose land uses listed as conditional or prohibited in the underlying zone with a General Development Plan (Type III).
17.65.080 – Amendments to Approved Plans	 Removing requirement that an amendment to a master plan which includes development within 100 ft of the master plan boundary must be reviewed through a Type III process Adding new uses which increase vehicle trips more than 10% from what was originally approved as a an amendment that must be reviewed through a Type III process 	 The standard that development within 100 feet of the master plan boundary must be reviewed through a more discretionary Type III process is unnecessary and not tied to any approval criteria. If a new use not included in the original master plan which will result in significant traffic impacts is proposed, a more discretionary Type III process is required.
Chapter 17.68 Zoning Changes and Amendments		
	Various language revisions for clarity and consistency	Revisions for clarity

August 6, 2018 Draft

Adding Public/Quasi-Public comprehensive plan designation and Institutional zoning	 Current chart is missing the Public/Quasi-Public comprehensive plan designation and associated zoning
designation	designation.
g	

Errors or emissions may exist. Please refer to code amendments for all changes.
