OREGON CITY

2017 – 2019 City Commission Goals and Priorities

GOAL 3: Enhance the Livability of the Community

- Review local regulations and processes to remove barriers and provide incentives to additional housing opportunities.
- Identify partnerships/programs and funding to address houseless community members.

GOAL 1: Cultivate an Environment for Successful Economic Development

- Complete site-readiness efforts, which can be accomplished through either physical site improvements or process and permitting refinement.

Equitable Housing

We have worked together again as a community to determine the housing options available to property owners and provide clear and reasonable design criteria for all types of development.

What is the Goal?

Work together as a community to provide greater housing options for all residents and property owners and provide clear and reasonable design criteria for all types of development.

The project does *not* include:

- An audit of every standard in the Oregon City Municipal Code
- Considerations not related to the Municipal Code (SDC's, fees)
- Changes to the zoning map
- Construction of any project

What Amendments are Proposed?

Equitable Housing

- Accessible to all ages, abilities and incomes
- Convenient to meet everyday needs, such as transit, schools, childcare, food and parks

Other Changes

Amendments identified by staff, the public, or Planning Commission including general clarification, reformatting, and amendments to address concerns identified over the years.

Re: Policy Advisement

The Planning Commission, during the course of reviewing proposed amendments to the Oregon City Municipal Code, identified a variety of topics outside of the scope of the project. We would like the City Commission to consider the following.

Supporting Affordable Housing Units

Though the proposed code amendments provide opportunities to increase the number of housing units and housing options, they provide no guarantee that affordable housing will be built. Local jurisdictions often employ a variety of other tools to encourage affordable housing by preserving existing housing stock and supporting new construction. We suggest the Commission consider a menu of approaches to further support affordable housing, including:

- Provide property tax exemptions for up to ten years for multi-unit projects that meet certain rent affordability targets;
- Charging full system development charges (SDCs) for a home that replaces a demolished home;
- Provide a reduction or waiver of SDCs for accessory dwelling units, and/or new multi-unit housing;
- Adopt disincentives for demolition of existing housing stock beyond protected historic resources;
- Create and establish a City housing bond measure similar to the recent Metro measure that was recently approved by the voters;
- Require that new multi-unit developments include a given percentage of below-market rate units (known as inclusionary zoning);
- Create a locally-funded rent voucher system;
- Include workforce housing projects in Urban Renewal projects;
- Use of other capital improvement funds to help pay for the infrastructure needed to serve a workforce housing project.
