RESOLUTION NO. 19-26

A RESOLUTION ADOPTING UPDATED CITY OF OREGON CITY PUBLIC WORKS STORMWATER AND GRADING DESIGN STANDARDS

WHEREAS, the City of Oregon City operates and maintains a stormwater drainage system in order to provide address stormwater flooding and treatment throughout the City according to the Department of Environmental Quality 1200-C permit; and

WHEREAS, the City's stormwater system serves 22 drainage basins comprised of over 53 stormwater management areas and over 114 miles of pipeline as well as other facilities including manholes, catch basins, culverts, ditches, streams and tanks; and

WHEREAS, the City finds it is necessary to establish and implement uniform engineering design standards for all Public Works Stormwater and Grading projects in the interest of health, safety, and welfare of the residents of the City of Oregon City.

NOW, THEREFORE, OREGON CITY RESOLVES AS FOLLOWS:

Section 1.   That the Commission, by this Resolution, adopts the Public Works Stormwater and Grading Design Standards, attached to this resolution as Exhibit "A", for application to all stormwater and grading improvements within the City.

Section 2.   The effective date for the Public Works Stormwater and Grading Design Standards shall be the date this resolution, which will be upon adoption by the City Commission.

Section 3.   The Public Works Stormwater and Grading Design Standards adopted by this resolution shall supersede the Public Works Stormwater and Grading Design Standards, as adopted February 2015.

Section 4.   That the Commission, by this Resolution, empowers the City Engineer to periodically update these Standards as needed to maintain currency with standard engineering practices and standards.

Approved and adopted at a regular meeting of the City Commission held on the 17th day of July 2019.

_____
DAN HOLLADAY, Mayor

Attested to this 17th day of July 2019:   Approved as to legal sufficiency:
