

To whom it may concern,

This letter is to bring light to the benefits of Bent Shovel Brewing closer to town.

We at Shattered Oak brewing believe that having B.S.B. in town will create a link in the chain to our tourism. Especially the fact that it adds a chain of customers continuing up the hill from our downtown area.

We up here have had a struggle with this since more of the focus for tourism has been on the downtown main street area. This to us is a big help and I think consideration should be met for the City to help promote and support more of the small businesses in this area.

Sincerely,

Brandon Neldner

Owner/ Shattered Oak Brewing
