3c. Metro Update - Councilor Carlotta Collette

Metro Councilor Carlotta Collette gave an update on the 2015 growth management decision which was not to expand the Urban Growth Boundary, Southwest Corridor Project, Powell-Division Corridor Project, regional flexible funds, solid waste roadmap, Willamette Falls, Oregon Zoo, Nature in Neighborhoods trails grants, and Parks and Natural Areas System Plan.

There was discussion regarding the need for flexibility for expansion within the Urban Growth Boundary, housing preferences, and affordable housing.

4. Citizen Comments

William Gifford, resident of Oregon City, said in regard to the Public Works facility, he thought the City already owned property zoned institutional that was flat and easy to build on, centrally located, had a signalized intersection, and was in proximity to existing Public Works facilities. He suggested using part of the Mountain View Cemetery that had not been used yet.

Bob Mahoney, resident of Oregon City, said growth was inevitable, but the infrastructure was costly. The City needed to look at growth in terms of how much it would cost and where they would get the funding. He suggested the Commission look at the financial aspect of what growth would cost and have the discussion with other jurisdictions in the area because it affected everyone.

5. Adoption of the Agenda

The agenda was adopted as presented.

6. Public Hearings

6a. Resolution No. 15-27, Adjustments to the 2015-17 Biennial Budget

Mayor Holladay opened the public hearing.

Tony Konkol, Interim City Manager, said this was a request to amend the 2015-17 biennial budget. The budget adjustment recognized the increased revenue as development continued to increase and the lower expenditures due to how staffing was filled in the Building Department. Staff proposed hiring a Senior Building Inspector to bring all of the inspections for building permits in-house instead of using outside Intergovernmental Agreements. It would be better customer service to have it in-house and they could provide service to other jurisdictions. This position should pay for itself by taking in revenues for the commercial and residential electrical inspections. The budget adjustment would be \$276,000 for salary and benefits over the two year biennium.

Dan Berge, resident of Oregon City, was a local builder and in favor of having an in-house inspector for better customer service and to keep projects on schedule. He thought the City would make more money than they would be paying out for the new inspector.

Mayor Holladay closed the public hearing.

Mike Roberts, Building Official, said currently the City was farming out the commercial plumbing and electrical inspections and plan reviews to Clackamas County. The County got 70% of all electrical permits that were issued and 100% of the plan reviews. This year the County made over \$11,000 per month. The work load had increased from 13 inspections per day to 37 inspections per day. The City had always issued the permits. The County could take a long time to process the applications and the City had no control over that. Oregon City would be the only jurisdiction in the County to have its own electrical program. It would be less expensive to do it in-house and faster.

A motion was made by Commissioner Pauli, seconded by Commissioner Smith, to approve Resolution No. 15-27, adjustments to the 2015-17 Biennial

Budget. The motion carried by the following vote:

Aye: 5 - Commissioner Brian Shaw, Commissioner Rocky Smith, Commissioner Carol Pauli, Mayor Dan Holladay and Commissioner Renate Mengelberg

6b.

Meyers Road Extension Corridor Plan (Planning File: L 15-04)

Mayor Holladay opened the public hearing.

Mr. Konkol requested continuance of the hearing to September 16, 2015, to allow for a City Commission Work Session to discuss the Plan and the Planning Commission's recommendations.

Kathy Berge, resident of Oregon City, owned 14 acres on Highway 213, which would be part of the Meyers Road extension. Crosswalks had not been discussed and she was concerned that high school students and people going to the park would not have a safe place to cross. Parking was also an issue as this would be a City park and there were two sports fields nearby. Meyers Road was a three lane road and did not meet Code for the zoning of the properties. It needed to be a four lane road. On her property one ingress and one egress was allowed and she did not think it would be enough for safety reasons.

A motion was made by Commissioner Smith, seconded by Commissioner Pauli, to continue the hearing for the Meyers Road Extension Corridor Plan (Planning File: L 15-04) to September 16, 2015. The motion carried by the following vote:

Aye: 5 - Commissioner Brian Shaw, Commissioner Rocky Smith, Commissioner Carol Pauli, Mayor Dan Holladay and Commissioner Renate Mengelberg

She got to be part of a TV series at the Willamette Falls Media Center called "Breaking the Box." She attended a meeting regarding the fee structure of the Sign Code. She suggested the Commission hold a Work Session on the topic.
