3. Discussion Items

3a. Park Funding Options Discussion

Phil Lewis, Community Services Director, gave a Parks Department overview which included 38 parks and facilities, department structure, staffing levels and responsibilities, deferred maintenance, current conditions, and funding options such as the General Fund, general obligation bond, local option levy which would be \$0.20 per \$1,000, park district either county service district or special park district, park utility fee, food and drink tax, or transient tax. Staff was seeking feedback from the Commission on areas for further study and exploration. Staff was working on a Condition Assessment Report with updated cost estimates. There would also be public engagement in the process.

Commissioner Shaw asked for all the options to be put in a matrix for easier study. He thought the funding needed to be consistent.

Commissioner Mengelberg wanted to make sure the option chosen would raise enough money to provide the level of service that citizens wanted and it needed to be politically

palatable.

Commissioner Ide asked for a list of the deferred maintenance and needs of the Parks Department. She suggested some of the options to explore were raising the tax rate, special park district, and transient tax.

Commissioner Mengelberg thought they should look at the park utility fee, transient tax, and special park district options.

Mayor Holladay thought they should keep the local option levy as an option as well.

There was discussion regarding the logistics of creating a special park district.
