Deed of Dedication for the Meyers Road Extension Project (CI 17-001)

RECOMMENDED ACTION (Motion):

Staff recommends that the City Commission adopt a motion accepting the attached Deed of Dedication and Letter of Agreement for the Saunders property, also known as Tax Map 32E09C Lot #200, and authorize the Mayor and City Recorder to execute them.

BACKGROUND:

The Meyers Road Extension, located between High School Avenue and Highway 213, is identified in the 2013 Transportation System Plan as project D46 - Meyers Road West Extension. In February 2015, preparation of the Meyers Road Extension Concept Plan commenced and was funded through a cooperative agreement between the City of Oregon City, the Oregon City School District, and Clackamas Community College. This process completed an alternatives analysis looking at existing conditions between High School Avenue and Highway 213 to develop the preferred alignment and necessary improvements for the extension of Meyers Road. This extension of Meyers Road will help to serve many purposes including:

- Relieving congestion on Glen Oak Road; and
- Providing a new access through the area to foster future development of land parcels adjacent to the road; and
- Providing access for the Oregon City School District Transportation and Maintenance Facility, a future park at the corner of High School Avenue, and an additional access (from the south) to Clackamas Community College.

The City’s engineering consultant, OBEC Consulting Engineers, has completed design of the Meyers Road Extension Project improvements and finalized the property acquisition needs. These property rights acquired from the Saunders property include 66,124 square feet (SF) of right-of-way and 21,834 SF of Permanent Slope and Public Utility Easements.

As noted in the Letter of Agreement, the project is providing one commercial driveway to the northern parcel. With construction of the Meyers Road Extension, the northern parcel will no longer have

access to Glen Oak Road. This driveway provided by the project will provide direct access to a public street. Additionally, the property owner has requested additional site amenities (one set to each parcel), as noted: two commercial driveways, two water service stub outs, and two sanitary sewer service stub outs.

The following summarizes the compensation for the right of way and site amenities requested by the property owner that will be included in the project, and the credit on the purchase price of the right of way for these amenities.

Right of Way Value	\$330,620.00
2 EA 40' Wide Commercial Driveways	-\$42,000.00
2 EA 8" Water Service Stub Outs	-\$31,000.00
<u>2 EA 8" Sanitary Sewer Service Stub Outs</u>	<u>-\$12,000.00</u>
Total Compensation for Right of Way	\$245,620.00

BUDGET IMPACT:

Amount: \$245,620.00
FY(s): 2018/2019
Funding Source: Street SDC
