Replacement of the 800MHz Public Safety Analog Communication System

### **RECOMMENDED ACTION (Motion):**

Consider and discuss impacts of the proposed funding strategy.

### **BACKGROUND:**

Clackamas 800 Radio Group, an ORS 190, is comprised of most of the public safety providers within Clackamas County. C800 owns and operates the public safety voice and data radio communication systems serving Clackamas County. The age of the current analog system and changing technology makes replacement of the existing analog public safety communication systems necessary.

John Hartsock, Clackamas 800 Radio Group, will be presenting.
