Willamette Falls Legacy Project Riverwalk Design Concepts

RECOMMENDED ACTION (Motion):

Staff recommends the Committee provide feedback to inform the riverwalk project.

BACKGROUND:

Willamette Falls Legacy Project staff will provide an update on the riverwalk design process, with a focus on the design concept drawings that were part of a public workshop on November 17th. It is hoped that this will be a dialogue with the commission rather than a one-way communication. The project team wishes to gather input from the commission to feed into the preferred design.

The presentation will cover the following topics:

- Update on parking and transportation work that will kick off soon
- Design concepts for the north riverbank, pipe chase, and clarifier
- Materiality and experience for explorer trails, the public yard, and the falls overlook
- Community engagement
- Project schedule and next steps
- Q&A
