Parker Knoll Subdivision: TP 17-02 Eleven Lot Subdivision at Leland Road and Reddaway Avenue Including Utilization of an Existing Easement in Wesley Lynn Park

RECOMMENDED ACTION (Motion):

Staff recommends the City Commission not accept public testimony and approve the Parker Knoll Subdivision (Planning file TP 17-02).

BACKGROUND:

The Oregon City Planning Division received an application from Icon Construction for a subdivision located at 19510 Leland Road, Oregon City, OR 97045 and identified as Clackamas County Map 3-2E-07D, Tax Lots 600, 601, 700, 701, 501, and 401. The proposal includes subdividing the subject site into 11 lots to accommodate single-family residences along an extension of Reddaway Avenue. The applicant proposed to utilize an existing easement to accommodate a portion of the roadway on the Wesley Lynn Park site. Though the easement grants the applicant rights to develop a portion of Wesley Lynn Park, according to the Oregon City Charter, certain development of park property requires approval of Oregon City voters. The easement area has twice been the subject of election proposals that would have allowed locating a roadway, drainage and utilities necessary to support the development on park land. The applicant revised the design to include a public road within a portion of the easement as well as a concrete path, both within and outside of the easement area, which they believe is authorized by the easement and does not require voter approval.

The City Commission called up the subdivision application in order to review the proposal in a comprehensive manner to consider the Charter issue as part of the subdivision proposal. By calling up the review, the public was invited to participate in a *de novo* decision making process where new evidence may be submitted both in writing and in person before the City Commission.

On October 18, 2017 the City Commission closed the public comment period and voted 4-1 to tentatively approve the application based on a finding that the subdivision criteria are met with conditions and that the proposal does not require voter approval. Draft findings have been provided for consideration by the City Commission in support of their tentative decision.

The record is closed. No new testimony will be accepted unless reopened by the City Commission.
