Central Point Road Corridor Speed Analysis

BACKGROUND:

At the June 2017 Transportation Advisory Committee (TAC) meeting a request was made to lower the speed limit on Central Point Road. In order to get a better idea what the adjacent communities concerns were with the speed limit on Central Point Road, staff created a Webform asking the neighbors what speed they recommended for the corridor and why they recommended that speed. John Lewis will provide an update on the results of this survey and ask for TAC support on a recommendation for a 35mph speed limit along the entire Central Point Road.
