5-Year Preventive Maintenance Plan

BACKGROUND:

A Pavement Maintenance Fee (sometimes known as a Transportation Utility Fee, Street Maintenance Fee, Road User Fee, or Street Utility Fee) is a monthly fee collected from residences and businesses based on their use of the transportation system within the city limits of Oregon City. The fee is based on the number of trips a particular land use generates and is collected through the City's regular utility bill. It is designated for use in the maintenance and repair of the City's transportation system. Users of the road system share the costs of the corrective and preventive maintenance needed to keep the street system operating at an adequate level.

John Lewis, the Public Works Director, will present the 5-Year Preventive Maintenance Plan
